

PRESS RELEASE

New Toll Collection System at the Gasparilla Island Bridge Authority Goes Live

Bridgeport, PA -- December 20, 2019

In early 2019, E-Transit, Inc. (www.etransit.us) was contracted to supply a new, fully customized, state-of-the-art toll collection system for the Gasparilla Island Bridge Authority (GIBA) in Southwest Florida.

This system combines new manual and electronic toll collection (ETC) technologies with existing legacy payment devices. Included in the system are new receipt printers, data networks, servers, automatic license plate reading system, touch-screen toll terminals, barcode readers, loops, fiber-optic treadles, revenue and traffic management applications, ETC Customer Service Center system, and E-Transit's ITV-3000 digital video based toll audit system.

A new customer-facing ETC customer service website is included. This website is hosted in the ultra-reliable Microsoft cloud and allows customers to enroll in the system, order tags, add funds to accounts, see account activity, download statements, etc.

The system includes the latest generation of Star Systems ETC RFID technology that includes ISO 18000-6C windshield tags, ISO 18000-6C headlight tags and ISO 18000-6C plastic cards. As part of this project, E-Transit developed a unique set of algorithms that break new ground in the elimination of cross-lane tag reads.

About E-Transit:

E-Transit is a leader in information and control systems for the transportation, ports, and security industries. Our team includes experienced systems professionals who provide consulting, hardware/software design, and system integration services for intelligent transportation, security, toll and revenue collection, point of sale, industrial control, and auditing applications. We use off-the-shelf components, standardized communication protocols, open computing systems, and conservative design practices.

The Company has ongoing projects and installations in the USA, and abroad. The company E- was founded in 2000 and operates from offices in Bridgeport, Pennsylvania (approximately 20 miles from Philadelphia).
